

JAICHARAN M

AI Developer | Python Developer | Full-Stack Enthusiast | Automation Engineer

ABOUT ME

Computer Science and Engineering student with a strong passion for Artificial Intelligence, Machine Learning, and Software Development. Experienced in creating AI-powered applications, desktop assistants, and full-stack web applications. Proficient in Python, JavaScript, and modern development frameworks. Interested in Artificial Intelligence, Automation, Cloud Computing, and Distributed Systems. A quick learner with excellent problem-solving and teamwork abilities.

EXPERIENCE

Web Development Intern

Gateway Software Solutions | 02/05/2025 - 18/06/2025

- Implemented cost-control measures resulting in a 15% reduction in operational expenses.
- Streamlined financial reporting processes, enhancing overall efficiency by 20%.
- Led a team in successfully navigating a complex audit, ensuring compliance with industry regulations.

Python and Data Analysis Development Intern

RK Engineering | 02/05/2026 - 31/05/2026

- Developed Python-based automation solutions.
- Worked on AI and Machine Learning projects.
- Collaborated with team members to design and implement software features.
- Participated in testing, debugging, and documentation activities.

PROJECTS

JARVIS – AI Desktop Assistant

- Developed an AI-powered desktop assistant using Python.
- Implemented voice commands, speech recognition, and automation features.
- Integrated local AI models and desktop companion interface.
- Added system control and intelligent task execution capabilities.

Technologies: Python, PySide6, Speech Recognition, AI APIs

MiniMe – AI Companion

- Developed an interactive AI companion with face recognition and voice interaction.
- Implemented emotion tracking and personalized conversations.
- Designed a desktop pet interface with animations.

Technologies: Python, OpenCV, PySide6

AI Gallery

- Created an AI-powered image generation and management platform.
- Implemented user authentication and cloud storage features.
- Designed an intuitive UI for image organization and generation.

Technologies: React, Node.js, Python, MongoDB

Portfolio Website

- Developed a responsive portfolio website using React.js.
- Showcases projects, achievements, and technical skills.

Technologies: React.js, HTML, CSS, JavaScript

EDUCATION

BE CSE-Karpagam Academy
of Higher Education (2024 –
2028) CGPA: 6.74

HSC – RKS Institutions (2023 –
2024)

MARK: 370 CUTOFF: 125

SSLC – Carmel Garden
Matriculation Higher

Secondary School (2021 –
2022) MARK: 263

SKILLS

Technical Skills

- Frontend : HTML5, CSS3, JavaScript, React.js, Bootstrap
- Backend : Python, Node.js, Express.js
- Database : MySQL, MongoDB, SQLite
- Programming Languages : Python, Java, C, JavaScript
- Tools : Git, GitHub, VS Code, Docker, Postman, Linux

Soft Skills

Problem Solving, Communication, Leadership, Time
Management,
Team Collaboration, Critical Thinking, Adaptability

CERTIFICATIONS

- Python and Data Analysis
- Linux and Shell Scripting
- Networking and Basics
- MongoDB Basics
- Raspberry Pi Foundation Certification
- AI Tools Workshop - be10x Certificate

PARTICIPATION

Smart India Hackathon (SIH),
Hack4Impact, Coding Contests, Technical
Workshops, AI and ML Seminars

AREAS OF INTEREST

- Artificial Intelligence
- Machine Learning
- Automation Engineering
- Cloud Computing
- Distributed Systems
- Full Stack Development
- Software Engineering
- Computer Vision
- Natural Language Processing

For additional projects, research work, and technical contributions, please refer to my Portfolio and GitHub profile.
